

IskUber

Use Case Specification

Submitted to:

Asst. Prof. Ma. Rowena C. Solamo
Faculty Member
Department of Computer Science
College of Engineering
University of the Philippines, Diliman

Submitted by:

Bilaw, Nicole
del Rosario, Luis Gabriel
Tamayo, Juan Gabriel

In partial fulfillment of academic requirements
for the course
CS 191 Software Engineering I
of the
1st Semester, AY 2017-2018

Unique Reference:

The documents are stored in the IskUber GitHub Repository Link.

<https://github.com/CrumbleThorn/IskUber>

Document Purpose:

This document serves as the official Use Case Specification document for IskUber. This document expounds on the internal details of the use case.

Target Audience:

This document is targeted towards software engineers who wish to learn about the specific flow of events for each use case of the system.

Revision Control*History Revision:*

Revision Date	Person Responsible	Version Number	Modification
10/08/17	Luis Gabriel Q. del Rosario	1.0	Initial Document.
10/08/17	Luis Gabriel Q. del Rosario	1.1	Filled out empty fields and tables, and added the Activity Diagram.
10/11/17	Luis Gabriel Q. del Rosario	1.2	Updated flow of events and activity diagram; Version number should match the one found in the footer.

Use-Case Name: 1.0 Manage Driver Account

Description: The driver can view the status of their driver account. Relevant information such as vehicle details and account information may be viewed here.

Preconditions: In order to view their account details, the driver must have already created a driver account (Use Case 1.1).

Flow of Events:

Scenario Name	Description
Scenario 1 (Basic Flow) User wishes to view their driver account information.	<ol style="list-style-type: none">1. If the user has already created a driver account, display their account information.2. If the user does not wish to update their account information, nothing follows.
Scenario 2 User wishes to update their driver account information.	<ol style="list-style-type: none">1. If the user has already created a driver account, display their account information.2. If the user does not wish to update their account information, nothing follows.

Activity Diagram of the Flow of Events:

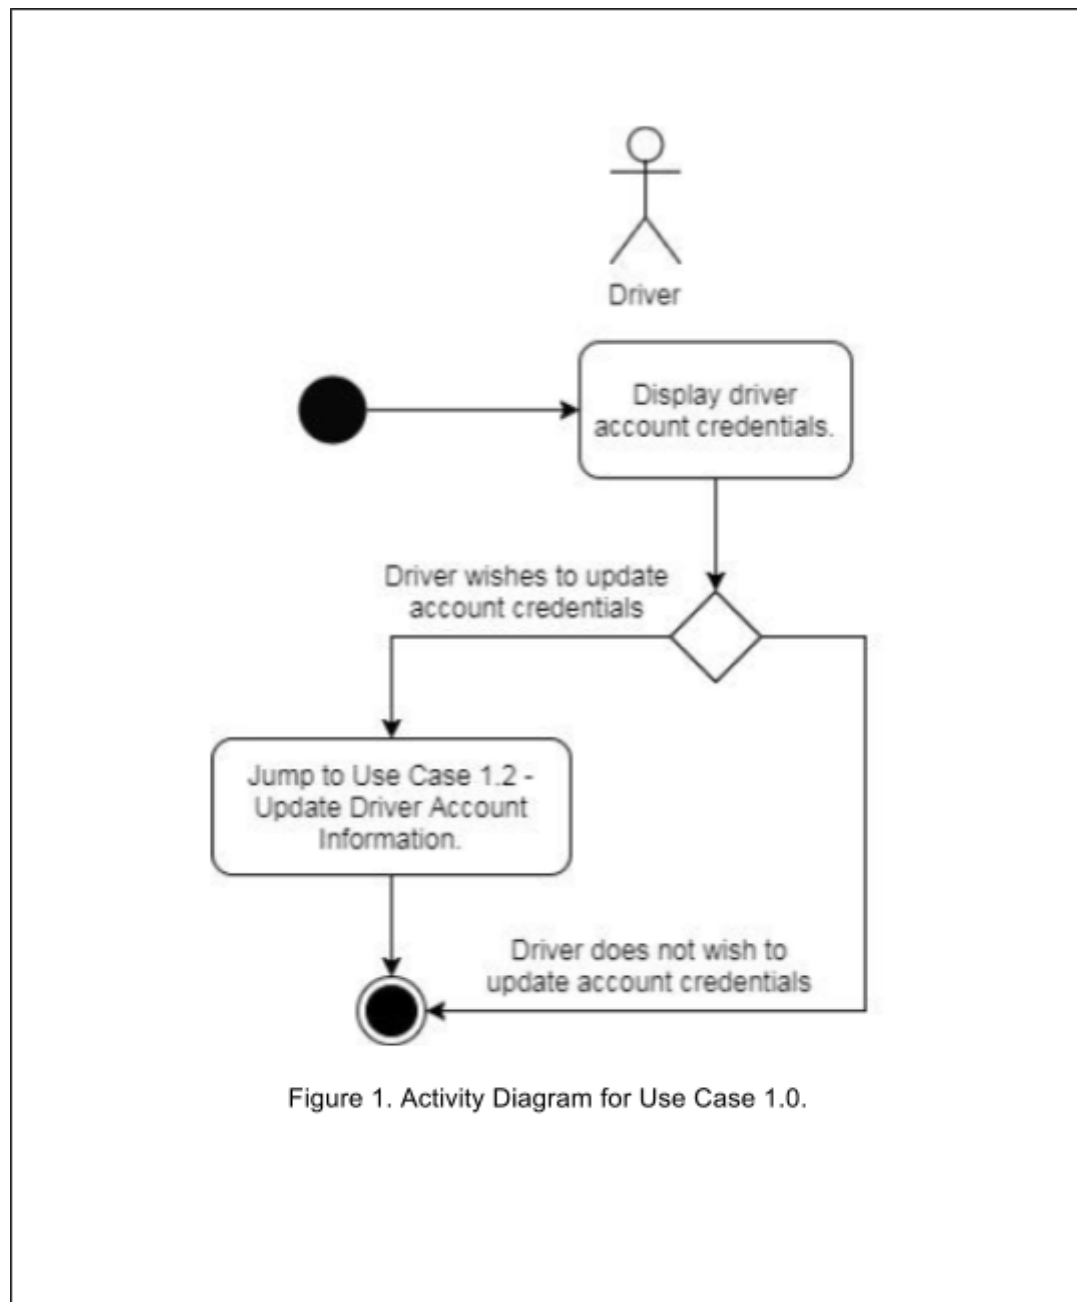

Figure 1. Activity Diagram for Use Case 1.0.

Postcondition: NONE

Relationships: This use case is related to use cases 1.1 and 1.2.

Special Requirements:
NONE
