Sprint Review Checklist

Project Name	IskUber	Project ID (if applicable)	
Reviewer's Name	Nicole Bilaw	Sprint No.	01
Review Date	February 9, 2018		

This checklist is to be used to assess if sprint goals have been achieved during the sprint. Particularly, if the target features of the software have been built based on user acceptance criteria.

Functional Goals:

User Acceptance Criteria	Compliance		Remarks	Estimated Value
	Yes	No		
UC-5.3-S1: User views the complete list of drivers.	✔		Only the frontend part is accomplished because the database is not yet implemented, a placeholder was used for the database	21
UC-5.2-S1: User views the complete driver's list and wishes to send a passenger request.	✔		As long as it is made clear that the user may send a passenger request if he wishes to, then this passes.	34
UC-7.0-S1: User views their current list of trips.	✔		Only the frontend part is accomplished because the database is not yet implemented, a placeholder was used for the database	13
TOTAL	3	0		
Team Velocity (Add all values of UAC that have been complied)				68

Tester's Comments:

Usability Goals:

If interfaces will be delivered at the end of the sprint, evaluate the system according to Nielsen's Usability Heuristics. For items that are not applicable, check **NA**.

Nielsen's Usability Heuristics	Strongly Disagree				Strongly Agree	NA
	1	2	3	4	5	
Simple and Natural Dialogue					✔	
Speaks the Users' Language					✔	
Minimize User Memory Load						✔
Consistency					✔	
Feedback						✔
Clearly Marked Exits					✔	
Shortcuts						✔
Good Error Messages						✔
Prevent Errors						✔
Help and Documentation						✔

Reviewer's Comments:

The database should be fully implemented on the next sprint. The UI works quite well, but still needs improvement.
